Sunday I go to meet little Sally  
And I jump up the stairs 'cause I wanna tell her  
I wonder if we can start another waterbed rally  
Sally laughs and what she says ain't a lie

Ride me till I cry  
Push the pen, push the pen as high as you really can  
Dive into my funny side

She opens her lips and the hot sweet taste  
Makes me forget about the energy I waste  
Feelin' better now 'cause I know the way how  
To help her find the highest point and she screams  
loud

Ride me till I cry  
Push the pen, push the pen as high as you really can  
Dive into my funny side

What you gonna do on Tuesday?  
I relax my brain before I go insane  
She was so, she was so, she was fine  
Get ready for doing it everyday  
Not everyday, it's not my way  
You will try, you will try, Yeah I'll try

Day after day, the silly old game  
But Sally wants more, it's always the same  
Sixty-nine, real fine, she got hers and I got mine  
"Right boy make me shine, it's better now for me to die

Ride me till I cry  
Push the pen, push the pen as high as you really can  
Dive into my funny side

What you gonna do on Tuesday?  
I relax my brain before I go insane  
She was so, she was so, she was fine  
Get ready for doing it everyday  
Not everyday, it's not my way  
You will try, you will try, Yeah I'll try

What you gonna do on Tuesday?  
I relax my brain before I go insane  
She was so, she was so, she was fine  
Get ready for doing it everyday  
Not everyday, it's not my way  
You will try, you will try, Yeah I'll try

Ride me till I cry  
Push the pen, push the pen as high as you really can  
Dive into my funny side

The time is right today to take it to an end, okay  
If Sally is sleepin' tight, I change her with a rubber maid  
No more horror bedroom fights, rubber maids tell no  
tales  
I touch her sweet rubber skin and slowly she starts to  
sing

Ride me till I cry  
Push the pen, push the pen as high as you really can  
Dive into my funny side

What you gonna do on Tuesday?  
I relax my brain before I go insane  
She was so, she was so, she was fine  
Get ready for doing it everyday  
Not everyday, it's not my way  
You will try, you will try, Yeah I'll try

What you gonna do on Tuesday?  
I relax my brain before I go insane  
She was so, she was so, she was fine  
Get ready for doing it everyday  
Not everyday, it's not my way  
You will try, you will try, Yeah I'll try

She was so, she was so, she was so, she was so...  
She was so, she was so, she was so, she was so...  
She was so, she was so, she was so, she was so...  
She was so, she was so, she was so, she was so...
