Went to the jungle to see the witch doctor
Famed for his powers of reading the future
I've see fire and I've see rain
I've seen pride and I've seen pain
I will again

Treked to the jungle and found the witch doctor
Casting a spell I proceeded to watch on
He looked deep into my eyes
Next thing I knew I was hypnotised
Yeah
Hypnotised

He said
I see what you know
And I see what you're dreaming
I see where you've been
But you won't see me again

(Went to the jungle)
(To see the witch doctor)

Went to the jungle to find out my future
Found myself possessed and mentally useless
Saw the powers I could learn
He told me never to return
Or in hell you'll burn

I see what you know
And I see what you're dreaming
I see where you've been
But you won't see me again
