Well i don't really know you but i know your name
Ive got so many questions so many things to say
Well i believe that there must be some kind of evidence
to make this case
To fill a hole to make it stick is there someway i can
make my place
Youre the one to blame now im taking aim im never
gonna
Let you get away

Stop driving me away don't turn away
Now ive got you framed don't turn away
There's only one choice to make don't ever try and
escape
Im gonna make you love me
Im gonna take you down where you'll never be found

Well ive got you in my sight in my line of fire
Don't bother putting up a fight don't even try it
Youll never get away ive got you right where i can see
(you can't turn away)
Youll never get away there's no escaping from me
Youre the one to blame now im taking aim im never
gonna
Let you get away

Stop driving me away don't turn away
Now ive got you framed don't turn away
There's only one choice to make don't ever try and
escape
Im gonna make you love me
Im gonna take you down where you'll never be found

And you know it's not right but you turn a blind eye
And you wont even try well i can see right through your
lies

Ive got you in my sight my line of fire
Don't bother putting up a fight don't even try it

Stop driving me away don't turn away
Now ive got you framed don't turn away

There's only one choice to make don't ever try and
escape
Im gonna make you love me
Im gonna take you down where you'll never
Stop driving me away don't turn away
Now ive got you framed don't turn away
There's only one choice to make don't ever try and
escape
Im gonna make you love me
Im gonna take you down where you'll never be
Im gonna take you down where you'll never be found

Don't really know you but i know your name
