[Intro - Bicasso]

We ain't banging we just maintaining  
This one goes out to all the booty clappers  
The titty shakers, no mood fakers  
Party people in the dance, here's your chance

[Chorus]

Well it really wasn't nothing but a little something to say  
Something to play something for you  
Something that you're listening to  
SO wait a minute why you wanna keep it up right now  
Well said it really wasn't nothing but a little something  
to say  
Something to play something for you  
Something that you're listening to  
So gone get it if you wanna keep it up, true, true, true

[Grouch]

Something to bump, something to get the night started  
Clean your house to it mood's all light hearted  
I like art with a little bit of thought to it  
I love thoughts when I spit them in your pop music, huh  
That's my weapon of choice, turn the CNN off I got a  
more familiar voice  
For sure you feel it hoist them hands in the sky  
Ladies shake it show that man why you fly  
I span any gap between funks we don't need them  
I love the way I live it but I don't force feed them for  
sport  
I beat them to the spot Josh freed them (come on you'll)  
Show them how we come and if not then keep  
drumming  
I peeped someone smiling to the funk now that feels  
nice  
I'm a sucka for a smile and I still might  
But if I don't, don't take it as a dis baby  
I'm in character or maybe it's that I'm just lazy

[Chorus]

Well it really wasn't nothing but a little something to say  
Something to play something for you

Something that you're listening to  
SO wait a minute why you wanna keep it up right now  
Well said it really wasn't nothing but a little something  
to say  
(Whatizit) something to play something for you  
(Whatizit) something that you're listening to  
So gone get it if you wanna keep it up, true, true, true

So well we ain't say that it's make believe  
We start it right here's the truth  
Make you do what you gots to do, and come on, come  
on  
But if you ain't faking you best believe  
We making these just for you  
In the parking lot get the groove, and it's on, it's on

[Bicasso]

Look somebody said it Be-Eye-See up in the dance hall  
Keeping it moving feel the grooving so you stand  
strong  
This for my people you the sequel second dance you'll  
Brothers and sistas either you with us or you're damn  
wrong  
That ain't right not here to fight  
We here to party so your hands on holding your drinks  
they might  
Keep it flowing til the jams gone right  
Shaking your ass to music freakin with their pants on  
tight  
Touching the floor feeling for more let's make it last all  
Now that we in it go on and get it all night  
Feeling the perk making a habit putting in work hand  
clapping  
You never know nothing for sure live it up  
Bicasso like I said and man I'm all up in the cut  
Filling my cup and now I gotta give it up  
'Cause I got the party people like whaaaaaat

[Chorus]

Well it really wasn't nothing but a little something to say  
Something to play something for you  
Something that you're listening to  
SO wait a minute why you wanna keep it up right now  
Well said it really wasn't nothing but a little something  
to say  
Something to play something for you  
Something that you're listening to  
So gone get it if you wanna keep it up, true, true, true

[Grouch & Bicasso]

Well if you hear them you can find that one thing that

you're hunting  
What you ask for, you can have it

[Grouch]

Well now you get it I got it go on and now that I'm all  
straight  
Independent world wide fuck Allstate  
Give me all the cake bitch it's my birthday  
I don't care what Fifty told you

I guess everyone's invited  
But I'll shut the party down if I so much as feel like it  
Punch we'll spike it and my drunk ass get psychic  
You got some weed then light it

(Yeah) so well we ain't say that it's make believe  
(Well that's right) what's wrong or right here's the truth  
(Uhhh) make you do what you gots to do (uh-huh) and  
come on (well) come on

[Chorus]

Well it really wasn't nothing but a little something to say  
Something to play something for you  
Something that you're listening to  
SO wait a minute why you wanna keep it up right now  
Well said it really wasn't nothing but a little something  
to say  
Something to play something for you  
Something that you're listening to  
So gone get it if you wanna keep it up, true, true, true
