Are you numb,
have you cum..
from effortlessly
ripping me apart..

Hanging on,
but not for long
and all this as
you wait.. You wait.

I'm not afraid of you and I am
all done (could it get any worse)

"Would you be, strong for me?"
and if I did, would you stay?
Far away, far away..

You're in control,
It's getting old,
and I've run out of words to say..
I've run out of words to say...

I'm not afraid of you and I am
all done (could it get any worse)
