You'll never see the light of day  
You'll never play the way we play  
Come be the way you want  
When you're thinking of me  
Thinking of me now

Come see us hit the stage  
We're gonna try and satiate  
Come be the way you want  
When you're thinking of me  
Thinking of me now

Wait Up

You'll never feel you're not betrayed  
You'll never need to congratulate  
Come be the way you want  
When you're thinking of me  
Thinking of me now

Come see us hit the stage  
We're gonna try and satiate  
Come be the way you want  
When you're thinking of me  
Thinking of me now

Wait Up

Stay upside down  
Stay inside out  
Stay upside down  
It's you, I'm begging!
