[Verse 1]
Babe
Why are you still inside
Why don't you come outside
Relieve your pain
Time
We've been killing time
But I don't mind
The city's got me down
And our glory days are over
Yeah our glory days are gone

[Chorus
Let it rain, let it rain
I know coming down can hurt
And tonight is the night
Where we leave it all behind
'Cause I don't believe that they can wait
The sky's going black, lets celebrate
Let it rain, let it rain
I know coming down can hurt

[Verse 2]
Lies
We've been telling lies
One more's around
In this sleepless town
And our glory days are over
Yeah our glory days are gone

[Chorus]
Let it rain, let it rain
I know coming down can hurt
And tonight is the night
Where we leave it all behind
'Cause I don't believe that they can wait
The sky's going black, let's celebrate
Let it rain, let it rain
I know coming down can hurt

[Bridge]
And our glory days are over

Yeah our glory days are gone

[Chorus]
Let it rain, let it rain
I know coming down can hurt
And tonight is the night
Where we leave it all behind
'Cause I don't believe that they can wait
The sky's going black, let's celebrate
Let it rain, let it rain
I know coming down can hurt
