### "Shake It Like That"

(feat. Curren\$y)

#### *[Hook]*

Why don't you shake it like that, keep shaking it up  
Jiggle and wiggle your butt, baby don't stop it because I  
Love when you shake it like that, keep making it drop  
I'm paying fifty a whop, cause I don't want you to stop  
Not when you shake it like that, me and my whole crew  
Thinking of what we can do, if I could leave with you  
cause I  
Love when you shake it like that, this the New No Limit  
Baby keep making it wiggle, don't stop it jiggle cause I  
Love when you shake it like that

#### *[Choppa]*

Oh you a thick woman, oh yeah you looking good  
No time for small talking, girl you forget the wood  
Game swallow that, where the models at  
I'm with the New No Limit, baby holla back  
They call me Choppa-Chop, she call me Choppa Style  
They call me Choppa Stizzle, stands for off the hizzle  
I went from Fat-Fat, to 106 & Park  
They saw me on the Basement, now chickens wanna  
talk  
Now I don't really mind, cause I hit a dime  
I like em slim fine, big fine any kind  
Choppa make you, take it like that  
But me and my click, really

Curren\$y the Hot Spitter, niggaz know I got figgas  
For Christmas, I might buy the ghetto children bicycles  
Diamonds in my chain, I'm playing with some change  
Chicks trash my truck, so what I got another Range  
Everywhere that we be, Cali to D.C.  
Chicks pointing and grinning, cause they see me on TV  
They wanna leave the club, go to my house and freak  
me  
Good thing I got seven seats, in the Benz Jeep

I'll show you, how it's done  
You think you spending time with your child, naw dude  
you watching my son  
I'm a young tank dog, so you know how I roll  
Get to the flo', because I

*[Choppa]*

By now you know my name, and you done saw my show  
But now my concert over, and now it's time to go  
I got a couple of partnas, you got some girls too  
We in your town tonight, so what y'all wan' do  
Now girl don't try my patience, I ain't got no time for  
waiting  
I'm in the mood, for some hot steamy relations  
Let me see you shake, let me see it move  
Bounce it left to right, do me what you do  
It could be me and you, or we could flip the script  
You could cut my dog, I ain't about to trip  
Choppa make you, take it like that  
But me and my click, really
