I believe that life is free
I believe we're meant to be
As fine and lovely as you are
You're great to be around.

I believe our hearts can find
A way to push back all that time
I'm on the line
Waiting for your call.

When I saw you in that grocery aisle
You were walking that walk, smiling that smile
One by one the years roll off
And away go all those miles.

I believe we are brand new
Every day you make it true
I believe in love
And I'm in love with you.
