I'm lost in the love of you
Lost in the love of you
I'm thinkin' on back to sadder times
And everythings sad and gray
You're with me as you were me
Sharin' every thought of every day
And the Godless third way I turn
Nothin' ever happens my way
And take a turn to another thought
And move ahead to another day
For I'm lost within the love of you
Lost in the love of you

I pray the young face
She looks my way
I smile the light of day
She tries to ply her way with me
She knows so little of my way
And the way it is
She couldn't guess
And I'll remain unknown
She thinks I'm great
And all I've got is the need to be alone
For I'm lost, lost in the love of you
Lost in the love of you.

And thinkin' back on sadder times
I'm in the need to know
By days and ways to come
And what I should and shouldn't show
The smile could make the sunshine
Pour inside on a string
The rain comes down, thunder roars
And I'm alone again
And gone, gone in the love of you
Lost in the love of you.
