Lay some happiness on me so the brighter side you'll
see
No more lonelines to be lay some happiness on me

Tell me I'm great and I'll be greater build me up and I'll
fly
Love me now and be glad later tell your troubles bye
bye

Lay some happiness on me...

[guitar]

Spill that cup of trouble and sorrow the sooner or better
for you

Fill it up with a happy tomorrow we got some livin' to do

Lay some happiness on me...

[steel]

Cuddle me up and I'll see brighter honey lips kiss me
do

A good good lover makes a bad bad biter and I'm in
love and thinkin' of you

Lay some happiness on me...

Lay some happiness on me...
