"Nothing Between Us"

Perhaps the excitement of keeping a secret the
pleasure of playing a game
Made us scheme made us plan to erase the
middleman
But now somehow things aren't the same
Now nothing stands between us no wedding bands
between us
She set you free to come to me and everyone has seen
us
Now nothing stands between us but there's nothing
between us
[violin]
I guess that my eyes don't work well in the dark for
good was all I saw in you
But now I see the light what we did wasn't right and I
know that I've been a fool
Now nothing stands between us no wedding bands
between us
Now nothing stands between us but there's nothing
between us
