If you don't want me baby if you're not satisfied
If you don't care get on your horse and ride ride ride

Since you've got on your high horse those fancy
friends you've found
You've had a hard time seeing me you're always
looking down
If you don't want me baby...

You talked about me honey you tried to tear me down
But while you're throwin' dirt at me you're slowly losin'
ground
If you don't want me baby if you're not satisfied...
(Rap ta ta ta tap tap...)
If you don't want me baby...

I'll have your second fiddle returned to you today
Cause baby that's one instrument I've never learned to
play
If you don't want me baby...
Ride ride ride (rap ta ta ta tap tap...)
