I found something that tell you didn't exist
Something that makes up for all the love I've missed
It took love from you to find there was more to life than
mine
Something called happiness I found when I found you
I discovered there are days of sunshine
That it wasn't rain that fell just my tears all the time
Something that makes loneliness only be a word there
is
Something called happiness I found when I found you
[piano]
I found out nights are for sleep not to cry to
That old mem'ries never keep when they're not used
Something that makes mockery of what I thought love
to be
Something called happiness I found when I found you
I discovered there are days...
