You're at a bussiness meeting that's what you think I  
believe  
But to you life's one day party and it's always you who's  
here  
Let's someone throw a party you go and leave me  
home  
Tonight I'll throw a party of my own  
Tonight I'll throw a party of my own and mind will start  
the minute you'll come home  
I'll have the lights all burning bright and then at three  
or four  
Tonight I'll throw a party out the door  
[ guitar ]  
I don't care what the neighbors hear or what the  
neighbors see  
They'll know the morning after a good time was ahead  
by me  
This party that I'm throwin' won't be quiet won't be  
small  
He'll be the biggest wildest one of all  
Tonight I'll throw a party of my own...  
Tonight I'll throw a party of my own...
