"Wee Little Kittens"

Visit "[Wee Little Kittens](#)" on MotoLyrics.com

Wee little kittens has gotta wear mittens and puppies
gotta howl at the moon above
Stars gotta glitter and birds gotta twiddle and I gotta
have your love

Loving you comes naturally natural and easy
Love me too and if you do your love will surely please
me

I can't love just anyone Tom or Dick or Harry
They're not for me for me you see your love is
necessarry

Wee little kittens...

[steel]

I just have to hold you near have your love to guide me
I can do most anything as long as you're beside me
I don't care to take the chance hurt you or to doubt you
I can't think of losin' you cause I can't live without you
Wee little kittens...

[steel]

Some folks don't and some folks do some folks hardly
ever

Some will have no love at all and some will love forever
That's the way it is with me with your love to cheer me
I can hold up all the world as long as you are near me
Wee little kittens...

Wee little kittens has gotta wear mittens and I gotta
have your love
