"Why Where And When"

(Why where and when did I lose you)
I done over it and over in my mind
I can't think of when that reason why we're through
And I know I'll never rest until I find why where and
when did I lose you
(Why) did you have to go away (where) did I go wrong
loving you
(When) did you decided you didn't want me anymore
Why where and when did I lose you
[ac.guitar]
It makes not one bit of sense that you are gone
Was there something that I did or didn't do
Could it be how much I loved you wasn't shown why
where and when did I lose you
(Why) did you have to go away...
Why where and when did I lose you
