Welcome ice queen  
Our winter queen,  
Welcome cold winds,  
Clouds and sins,  
Welcome to this land rich on treasures,  
Welcome to our beautiful land.

It is time to wake you  
And open deep eyes,  
It is time to rule  
Over the cold world.

Let rule cold silence,  
Sing lullaby to the whole land,  
Sing lullaby of winter frosts.

Snow-white sky  
And frozen lakes,  
Cold wooden emptiness.

Put your face  
In this beautiful land  
Our ice queen  
Raise up your hands...
