Aha aha
This is a raid, love
Raid, love
Raid, love
Invasion

Aha aha aha aha
This is a raid, love
Raid, love
Raid, love
Invasion

Brand new heavens coming down
I get excited by the sound
My feet can hardly touch the ground
Cause your here with me now

Cause you got
What I like
You all that I want and need
I follow
Where you go
Your love has captured me

This a raid
I didn't ask for your heart, but baby I'll take it
Cause loves taking over, loves taking over
And it's alright
I try to leave you alone but I can't say it
Cause loves taking over, loves taking over
This a raid
Baby I don't know right now it's rocking away
Holding me on every side to make an escape
I am risking your heart but baby I'm taken
Cause loves taking over, loves taking over

Tell me who can stop the rain
The rain is gone
Born again
I'm feeling so carried away
Sunny days are here to stay

Cause you got
What I like
You all that I want and need
I follow
Where you go
Your love has captured me

This a raid
I didn't ask for your heart, but baby I'll take it
Cause loves taking over, loves taking over
And it's alright
I try to leave you alone but I can't say it
Cause loves taking over, loves taking over
This a raid
Baby I don't know right now it's rocking away
Holding me on every side to make an escape
I am riskingg your heart baby I'm taken
Cause loves taking over, loves taking over

This could be the sweetest time I ever did
I swear that this would be the crime that I commit
The generous siege up there's ever been
And your the controller, in your arms like a hold up
This could be the sweetest time I ever did
I swear that this would be the crime that I commit
Your generous siege up there's ever been
And your the controller, in your arms like a hold up

This a raid
I didn't ask for your heart, but baby I'll take it
Cause loves taking over, loves taking over
And it's alright
I try to leave you alone but I can't say it
Cause loves taking over, loves taking over
This a raid
Baby I don't know right now it's rocking away
Holding me on every side to make an escape
I am risking your heart baby I'm taken
Cause loves taking over, loves taking over
