Verse:

Our time is running out
We're on our last pulse - there's no doubt
You've gotta let me go, you know it's over
Pulling the plug, I can feel that

Chorus:

We're gonna flatline
We're gonna flatline
This love has no life, I've gave up the fight
I'm leaving tonight, because we're gonna flatline

Verse:

On the verge of new life
Our beats are fading, but I'm alright
Don't look at me like I'm the enemy
We saw this coming, pull out your IV

Chorus:

We're gonna flatline
We're gonna flatline
This love has no life, I've gave up the fight
I'm leaving tonight, because we're gonna flatline

Bridge:

Frozen here in chains
To me you don't look the same
Not the guy I once knew
This lifeline is falling through
We're on a love lockdown
Our silence has made so much sound
Not speaking - just living, gasping we're barely existing

Chorus
