I know you see me when I walk by
I see your eyes
I know your mesmerized
None of your girls could be like me
Take them out your phone
Just hit delete

I'm something else you've never seen before
What you'll be feeling you can't ignore
Forget about those games
Don't play with me
Just let go
You'll fall so easily

Chorus:
If I give you a taste of what I got
You'll fall In a trance (a trance)
If I show you what I'm all about
You'll fall In a trance (a trance)

Now your falling, falling, falling
Into a trance
Into a trance
Into a trance
Into a trance
Just let me show you baby
Something new, something real
Cause you wont believe baby
This something new, is so surreal
Yeah, just let me show you
No one else could ever compare
I know you want me
And you'll fall easily
Fall into a trance
