I've been tryin to tell you what was on my mind
I've been misplaced and can't come by
losing faith and my actions
can't deal with the functions
I'd rather not change everything I want
I know my wish are gonna grant
It's been like this since when I missed that before
I misplaced the darkness and goosebumps up my
pores
I know

I walk down the valley
I saw me
on the river
this journey will last forever
don't do your contractions
I'd drop to the ocean
I lost my mind bleeding now
can't wonder how
drop to the ocean

I've been losing
everything you know
I've been trying
to let it go
but you lost me
I lost you too
you can't forget me
that things that I do
let it fall clockwise
let the sun rise
and let the heaven
and let me drop again

I've been tryin to tell you what was on my mind
I've been misplaced and can't come by
losing faith and my actions
can't deal with the functions
I'd rather not change everything I want
I know my wish are gonna grant
It's been like this since when I missed that before
I misplaced the darkness and goosebumps up my

pores
I know

I walk down the valley
I saw me
on the river
this journey will last forever
don't do your contractions
I'd drop to the ocean
I lost my mind bleeding now
can't wonder how
drop to the ocean

you know what i want from you
you know what i need for you to do
you know i really miss you too
but you don't pass through
you know what i should care for this
when we first had our first kiss
we both miss each other

(guitar solo)

I walk down the valley
I saw me
on the river
this journey will last forever
don't do your contractions
I'd drop to the ocean
I lost my mind bleeding now
can't wonder how
drop to the ocean
I walk down the valley
I saw me
on the river
this journey will last forever
don't do your contractions
I'd drop to the ocean
I lost my mind bleeding now
can't wonder how
drop to the ocean
