# **"Endless Summer"**

Visit "[Endless Summer](#)" on [MotoLyrics.com](http://MotoLyrics.com)

can happen in December  
can't stop in November  
OH!  
I want this summer won't last  
cos I know time moves so fast  
hear Ashlee Simpson on MTV  
while Avril Lavigne is on the magazine  
the surfer guys surfs it up  
while the music won't stop  
what's wrong with this summer  
we can all remember

I want this summer won't last  
time moves fast  
I don't know but it has  
been an endless summer  
can happen in November  
won't end in December  
summer won't last  
it's been an endless summer

YEA!  
can lose up some time  
when the sky is almost daytime  
the beach is so cooled down  
partying over town  
I remember since last July  
it was all rain passing by  
but right now this can go forever  
Let's go and drive down the summer  
OUW!

I want this summer won't last  
time moves fast  
I don't know but it has  
been an endless summer  
can happen in November  
won't end in December  
summer won't last  
it's been an endless summer

It's been an endless summer

remember this didn't last in September  
more heavier the rain in October  
BUT!  
December is here  
endless summer won't dissappear  
November is going gone  
guess what's on tv?  
summer is on!

(guitar solo)

I want this summer won't last  
time moves fast  
I don't know but it has  
been an endless summer  
can happen in November  
won't end in December  
summer won't last  
it's been an endless summer  
I want this summer won't last  
time moves fast  
I don't know but it has  
been an endless summer  
can happen in November  
won't end in December  
summer won't last  
it's been an endless summer
