I just can't run
Need to show you my love
Even though the stars keep saying
That it wouldn't work
So let's get to work

We can get it if we want
When the time comes
Even though the stars say we won't work
Let's just get to work

Springtime so sweet
That relationship ain't what it should be
Stars just don't seem aligned for me
Clear your mind, boy
Stop trying to place it back and enjoy
Just keep on playing your cards ' happen naturally

'Cause it don't matter what they say
I'm out the way to find a way
Anytime of day it's ok
Just get me on my ringtone and I'll get back to you

I just can't run
Need to show you my love
Even though the stars keep saying
That it wouldn't work
So let's get to work

We can get it if we want
When the time comes
Even though the stars say we won't work
Let's just get to work

We don't need no horoscope to tell us, no
'Cause we already know, just bring it here to me
What I need, this gonna be your fantasy
Show me what it do, yeah, I want you to
They say we ain't compatible but I know that's not true
Even if it's only for the night
Let's do what our bodies say right

'Cause it don't matter what they say
I'm out the way to find a way
Anytime of day it's ok
Just get me on my ringtone and I'll get back to you

I just can't run
Need to show you my love
Even though the stars keep saying
That it wouldn't work
So let's get to work

We can get it if we want
When the time comes
Even though the stars say we won't work
Let's just get to work

Let's get to work, boy
Do what you do
And now I'm ready for you
Do what we want
I feel it so strong
I don't care what they say if they don't run
I wanna lay up in your arms
Don't hide your love
Do what we want

I just can't run
Need to show you my love
Even though the stars keep saying
That it wouldn't work
So let's get to work

We can get it if we want
When the time comes
Even though the stars say we won't work
Let's just get to work
