Where's the love that we knew
Is it gone or have you thrown it away
While the joy that we shared
I feel sure is not here anymore

Like smoke from a cigarette
Dreams that you soon forget
It's fading away
And it's 1900 yesterday

I thought you felt the same
Tell me who, who's to blame
The broken heart you've given me
All the hurt and misery
Where did I go wrong

Like smoke from a cigarette
Dreams that you soon forget
And night has no day
And it's 1900 yesterday

Where's the love that we knew
Is it gone or have you thrown it away
While the joy that we shared
I feel sure is not here anymore

Like smoke from a cigarette
Dreams that you soon forget
And night has no day
And it's 1900 yesterday

And it's 1900 yesterday
And it's 1900 yesterday
