Tied it up, tried to keep it inside, pushed it down, but it
wants to rise
Tied it up, tried to keep it inside, pushed it down, but it
wants to rise
Want to know what a body feels, want to know, but we
hate, we hate, we hate it
Want to know what a body feels, want to know, but we
hate, we hate, we hate it
Now we want to make it stop, want to make it stop, want
to make it stop cause we hate, we hate, we hate it
Can't get a little reprieve, can't get just a little, a little
reprieve
Can't get a little reprieve, can't get, gonna make,
gonna make, gonna make it
Bottle it up, try to keep it inside, push it down, but it
wants to rise
Bottle it up, try to keep it inside, push it down, but it
wants to rise
There were always, there were always signs
There were always, there were always, always signs
