Take one more step and it's over  
Back up slowly inside  
Breathe too loud and I'll kill you  
Get down on your knees and beg me  
Beg me, beg  
Beg me, beg me, beg

Take off all of your clothes  
Lie face down on the bed  
Move one inch and I'll shoot you  
Make like a woman and beg me  
Beg me, beg  
I said, beg me, beg me, beg

Every night on TV  
I see things that should make me blush  
Looks like it's going to be another open season  
Open season on us  
Open season, open season on us

It's the first hot day of the summer  
Looks like there's gonna be thunder  
I've been sitting here all afternoon  
Watching the clouds

You can see the sky from my window  
Can feel the wind and smell the rain  
And I don't see what difference it makes  
If I'm a man or a woman
