### "Everything"

Visit "[Everything](#)" on [MotoLyrics.com](http://MotoLyrics.com)

We have everything we need here  
We have everything between us  
You have nothing left to fear, Dear  
Because it ain't never going to leave us

We might get a room downtown now  
Get away for a half-day  
We might drive a car down to the next town  
Get away from our family

Let your body move me slow  
Tell your body we left yesterday  
Let your body hold me close  
Let your body move you

We have everything we need here  
We have everything between us  
You have nothing left to fear dear  
Because it ain't never going to leave us

Let your body move me slow  
Tell your body we left yesterday  
Let your body hold me close  
Let your body move you

Let your body move me slow  
Tell your body we left yesterday  
Let your body hold me close  
Let your body move you

Let your body move you  
Tell your body we left yesterday  
Let your body hold me close  
Let your body move you

We have everything we need here  
We have everything between us
