The six dick pimp is just doing his job  
Making sure that business isn't going under  
He's got the studs lined up in their stalls  
Put a couple of bills in, see six minutes of balls

Justine's got a plastic baggie on her dick  
Jerry's got a couple Prince Albert's through her prick  
And nobody's in number four and number six  
Put a couple bills in, man, you really shouldn't miss it

I don't care how much time it takes  
I don't care what kind of money he makes  
I just want my honey back  
I'll be on my way  
Gimme my boyfriend back

Thought you were smart  
Thought I wouldn't leave home  
Rented a car, now you're halfway to Idaho  
Thought you were smart  
Thought I'd leave you alone  
But you have no idea what kind of hell is coming down  
on you

I don't care how much time it takes  
I don't care what kind of money he makes  
I just want my honey back  
I'll be on my way  
You're gonna gimme my boyfriend back  
You're gonna gimme my boyfriend back

Six dick pimp is just doing his job  
Making sure that business isn't going under  
He's got the studs lined up in their stalls  
Put a couple bills in, man, you really shouldn't miss it
