"You Live Alone"

Visit "[You Live Alone](#)" on MotoLyrics.com

You live alone, at night, it's all you can do
Stop leaving, all the leaving's through
Stop happening, not happening to you
I know this part, I'll sing with you

I live alone, at night, it's all I can do
I dream alone right next to you
Stop happening, won't happen to you
I know this part, I'll sing with you

I know this heart can be so hard
With no one there to see it through
I know this part can be so hard
But I know this part, I'll sing with you

We live alone, at night, it's all we can do
We walk alone right next to you
Stop happening, can't happen to you
I know this part, I'll sing with you

I know this heart can be so hard
With no one there to see it through
I know this part can be so hard
But I know this part, I'll sing with you
