Plans are made to be cautiously broken
Words are finally set free when they're spoken

I need you now
Like water needs a river
Just float along
I'll follow you forever

Don't know where we're going
Don't know what we'll do
But you're inside of me, darling
I'm inside of you

I call your name in my dreams, can you hear me?
All the disarray falls away when you're near me

I need you now
Like water needs a river
Just float along
I'll follow you forever

Don't know where we're going
Don't know what we'll do
But you're inside of me, darling
I'm inside of you

I need you now
Like water needs a river
Just float along
I'll follow you forever

Don't know where we're going
Don't know what we'll do
But you're inside of me, darling
I'm inside of you

Don't have all the answers
Don't know what comes next
All we need is just a little faith and tenderness
Just a little faith
