I'm not fucking around  
I only tell jokes when I think they're funny  
You oughta think about it  
You oughta think about how I feel

Tell me that you like me  
Do you think that it's frightening?

Tell me you like me  
Baby, tell me you like me  
Make me come down to earth  
Tell me you like me  
Tell me you like me

I'm not fucking around  
You had a dream in which I was a spider  
While I was dreaming that you were in love with me

Tell me that you like me  
Do you think that it's frightening?

Tell me you like me  
Baby, tell me you like me  
Make me come down to earth  
Tell me you like me  
Tell me you like me  
And make me wanna come  
Baby, make me come down  
Make me come down to earth

Tell me you like me  
Baby, tell me you like me  
Make me come down to earth  
Tell me you like me  
Tell me you like me  
Make me come down to earth
