I don't know whether  
I'll love you much longer  
I don't know whether  
Whether I can  
But feeling like this on a hot summer's night  
I'm cold and I'm tired and I've tried to  
But I can't say goodnight  
And I don't know whether  
I need you so badly  
I don't know if ever  
If ever I did  
But feeling like this on a hot summer's night  
The wind in our eyes, and I'm crying  
'Cause I can't say goodnight  
I can't say goodnight  
I can't say goodnight  
And I can't help thinking

What we tried to prove  
Though we may be sinking  
At least we saw it all through  
And I don't know whether  
I'll love you much longer  
I don't know whether  
Whether I can  
But feeling like this on a hot summer's night  
I need you beside me, believe me  
'Cause I can't say goodnight  
I can't say goodnight  
I can't say goodnight  
Can't say goodnight  
I can't say  
Goodnight
