Unknown French?? verse - lyrics required

There is a time for hope and beginning
A time to lose, a time too, for winning
A time to waste on lazy vacations
And time for haste and beautiful temptations

This time it's time, this time there's no time to waste
Feel all the time we have, cannot be replaced
This time it's time, this time let's not hesitate
We know our time is brief and it cannot wait

There is a time for ultimate sadness
A time for youth and love's happy madness
A time for truth and being together
To go for walks in sunny April weather

There is a time for swimming and for sighing
A time to laugh, a time too, for crying
A time for dreams and also pretending
But when it seems that suddenly it's ending

This time it's time, this time there's no time to waste
Give it away as fast as the ?.....?
This time it's time, this time let's not hesitate
Don't take my life, my love, my eagerness this time

This time it's time, this time there's no time to waste
Give it away as fast as the ?.....?
This time it's time, this time let's not hesitate
Don't take my life, my love, my eagerness
For time - goes on - and on - and on - and on...
