I know what you wanna say
I see the words behind your eyes
By the time you show me what you're hiding
It won't be no surprise

Why do you keep on whispering?
Talking with your face turned away
You say, that love don't come easy for you
What makes you think I ain't afraid?

Let me in or let me go
It's time you tell me where you're standing, babe
I won't go down if you say, no
Just open up your mouth and say it, babe

Speak your heart, speak your heart

You used to say, the world goes away when you're with
me
I don't want to be your reoccurring dream
Let me out, let me stay after the sun rises
I want to be real to you, no more disguises

Let me in or let me go
It's time you tell me where you're standing, babe
I won't go down if you say, no
Just open up your mouth and say it, babe

Speak your heart, speak your heart
Speak your heart, speak your heart
Speak your heart, speak your heart
