I've been so wrapped up, in my warm cocoon
But something's happening, things are changing soon
Im pushing the edge, feeling it crack
And once I get out, there's no turning back
Watching the butterfly go towards the sun
I wonder what I will become
[CHORUS:]
Metamorphosis
Whatever this is
Whatever I'm going through
Come on and give me a kiss
Come on, I insist
I'll be something new
A metamorphosis
Things are different now when I walk by
You start to sweat and you don't know why
It gets me nervous but it makes me calm
To see life all around me moving on
Watching the butterfly go towards the sun
I wonder what I will become
[CHORUS]
[Spoken:]
Every day is a transformation
Every day is a new sensation
Alteration, modification
An incarnation, celebration
Every day is a new equation
Every day is a revelation
Information, Anticipation
Onto another destination
[CHORUS]
