You're always trying to figure out  
What I am all about  
If you don't know what the answer is  
Then just shut up and kiss

It shouldn't take forever  
To put it all together

[CHORUS:]  
If you can't do the math  
Then get out of the equation  
I am calling you back  
This is \* 69

Is it a minus or a plus  
Does enough equal enough  
If you can't do the math  
Then nothing adds up  
Tell me why I'm here

Sure I want someone to understand  
But I don't need the stress  
I'm not about being analyzed  
Like it's some kind of test

Don't have to be a genius  
To figure what's between us

[CHORUS]

You can spend your whole life analyzing  
Justifying, quantifying, and dividing  
'Till there's nothing anymore  
Why don't you just close your eyes  
And kiss my lips and let it go  
Just let it flow  
It's what I'm waiting for

Don't have to be a genius  
To figure what's between us

[CHORUS 2X]
