She's acting like a woman And you can tell by the look in her eyes She's still a child And she tells me She's gonna go far her own way And you know, yes you know It's just a game she plays

Save me I'm not just any fool You gotta - save me, save me I'm dying here with you

Search for what you need Hunger for the feed If you crash you soon will burn Never to return

I couldn't see My eyes were blinded Now you're a picture of the past A cold reminder

Save me I'm not just any fool You gotta - save me, save me I'm dying here with you

Search for what you need Hunger for the feed If you crash you soon will burn Never to return

Save me I'm not just any fool You gotta - save me, save me I'm dying here with you Yeah, you're killing me babe
