[LL Cool J]

C'mon, and you don't stop (here go another one)  
Uhh, uhh, and you don't stop (here go another one)  
Uhh, uhh, and you don't stop (here go another one)  
(Feel me baby, it's on)

Uhh, I was launched off the block, straight to the top  
To yachts with helicopters, I'm so hot  
Paparazzi, blinded by the rocks  
My limousine roll up, the whole world shocked cause  
you steppin out with an entrepreneur  
I copped you more than what you bargained for  
Roll the red carpet, enjoy the profits  
First, let's make love in the walk-in closet  
Daddy just made a nine digit deposit  
Believe me sweetie, it's not luck it's logic  
I'm the captain of my destiny  
Used to dream of the things I was blessed to see  
The jewels and the papers, sports cars and such  
There's nothing in the world LL can't touch  
You stood by my side and pushed me so much  
That's why you got them 10 karats, you know what?

[Chorus: Kandice Love]

It's so amazing, amazing, amazing  
Life's given my baby, my baby, my baby  
Maybe some day you'll feel, how I feel, it's crazy  
To see my baby.. is so amazing

[LL] Sing it baby

[Kandice Love]

I've got riches wall to wall  
Up the stairs and, down the hall of  
all the things that we have done  
You got more ideas for us to  
live our lives.. and explore..  
There is no topping you, you're untoppable

[Chorus]

[LL Cool J - over Chorus]  
So what you sayin? Uh-huh  
Hehehe, I appreciate it

[Kandice Love]  
It's so amazing, your love, to me  
It's so amazing, amazing, to me  
It's so amazing, your love, to me  
It's so amazing, amazing, to me

It's alright..  
Sometimes you work late at night (I know baby)  
(I miss you too)  
Just as long, as you don't defy my love  
Then it's on (I promise you baby)  
(I'll always love you)

[LL Cool J]  
Uh, uh, slide out to Venice, my game's in order  
Would chip in to vent, but the city's on water  
Searchlights and fireworks bling the sky  
A vowel on the end of everything we buy  
Yellow ice in both ears, I loosen up the tie  
I'm lovin this lifestyle, baby I can't lie  
It feels so good it make a grown man cry  
Cause I made it out the hood and a lot of my crew died  
I guess I had determination  
And baby girl kept me in the congregation  
Now it's private jets and deep conversation  
Hundred G's a month to show appreciation  
All eyes on us, the cameras flash  
In God We Trust, I don't love this cash  
But you was definitely - by my side when my world  
collapsed  
Now I'm, rich for life and I'm payin you back

[Amerie ad libs]

[Chorus]

[LL Cool J - over Chorus]  
This is like this for life baby  
This gon' always be like this  
God is my witness  
Hold you tight for the rest of my life  
Yknahmsayin?  
There's nothing I won't do for you baby  
I'm your man, I'm your man Our love is amazing, yeah  
[Amerie] It's so, amazing, to me
