Hand me the ball, baby, hahaha
Ah man, success inspires me

Super baller, giant, super baller, giant
Super baller, I feel like a giant

Super baller, small thing to a giant
They try break me down but I stay defiant
I said I was the go I swear I wasn't lying
Boys on fire, what the blood clot crying
Back in the red zone, handing out head stones
Leaving them in the corner, with blood right on their
headphones
You was right, my career is in the end zone
It's going on them, put that Excalibur sword on them
... never been greater, big old hands make it easy to
catch paper
Take the ball now, never wait until later
... it got to be major

Super baller, giant, super baller, giant
Super baller, I feel like a giant, giant, giant
Super baller, giant, super baller, giant
Super baller, I feel like a giant, giant, giant
It's a small thing to a giant

When it's all on the line, the ghost gonna shine
I don't ...when I hustle, I turn on the dime
Line in his body, fox in his mind
Guard in the soul, forever in my grind
Vision so great they thought I went blind
But see if you are sweeter when you coming from
behind
Champagne ain't nothing, but great's ...
Watch me pop bottles when I'm winning over time
... or mountain you can't climb
Poetry emotion that ... can't rhyme
Stay off the field, spare for your health
It's LL Cool J and everybody else

Super baller, giant, super baller, giant

Super baller, I feel like a giant, giant, giant
Super baller, giant, super baller, giant
Super baller, I feel like a giant, giant, giant
Half time, let's go, let's go, let's go
you know what time it is
Let's go, let's go, yeah, let's go
...switch coaches or something

This melody, a different pedigree,
Young boy's tired, he loosing energy
Take off my helmet, what, you don't remember me?
I'm never on my last leg, I'm a centipede
You can't be me, cause he's my legacy
Paying me ... oh he better be
I'm laughing these cats, they not ahead of me

Super baller, giant, super baller, giant
Super baller, I feel like a giant, giant, giant
Super baller, giant, super baller, giant
Super baller, I feel like a giant, giant, giant
It's a small thing to a giant.
