Yeah  
Word up  
And you say New York City  
Word up  
Take me away, baby

Damn, you and your man had beef  
So he left you Uptown, teary eyed, on the back streets  
For me to scoop up in the Bentley drop  
Long as God hold me down you know I had to stop

What the deal ma? You wanna use my cell?  
You runnin' solo? This block foul as hell  
You said my ex be beatin' on me  
He mad jealous even though he be cheatin' on me

I said miss, let me tell you somethin'  
'Bout who's makin' major moves and who's frontin'  
Who's talkin' loud but ain't sayin' nuttin'  
And those who get the one they want but keep frontin'

He don't appreciate the well 'til it run dry  
Love is blind, it's hard to say goodbye  
But smart birds choose to fly  
'Cause we livin' in the hood girlfriend, it's do or die

Here's my definition, of love everlasting  
I would trade all my cash in, for passion  
Tiffany jewels and designer fashions  
To hear happiness is mine for the askin'

Every day on my knees I pray  
That I would run into someone that make me feel this  
way  
What you think, you wanna ride with L?  
Some things are meant to be baby, you never can tell  
(I wanna ride, with you baby)

Every night, every day  
I just sit and dream about you  
You and me, you and me  
Hold me tight, ecstasy

Makin' love 'til everafter  
Baby you and me, yeah you and me

Now we dippin' on the FDR  
It's one of them lucky nights when you can peep out the stars  
We speak without talkin' and the world is ours  
When I glance over at ya I can feel your power

You schemin', I want a one-night stand  
I'm schemin', she probably in love with her man  
But we keep on rollin', hopin' there's somethin' more  
Dreamin' about tomorrow and what life got in store

Livin', no drama, we can chill, relax  
Sex all night in the morn' count stacks  
Sip Gran Marnier and maybe puff a dime sack  
But only in moderation, we ain't livin' like that, y'know?

We jetted up the Tavern on the Green  
To talk about love 'cause the game's extreme  
Domestic abuse and everything in between  
'Cause I want you to think of me when you need a  
shoulder to lean on

I'm from Queens, I'm a rep to the fullest  
But I'd rather chill with you, 'stead of dodgin' bullets  
Glock in the stash I don't really wanna pull it  
On some so-called thug cat, that's faker than acrylics

He said your fam be ridin' your nerves  
And you hate him for never givin' you the life you  
deserve  
Remember, the one who hold a grudge is foul  
And everything you ever wanted is in front of you now,  
whassup?  
(Baby, every night)

Every night, every day  
I just sit and dream about you  
You and me baby, you and me  
Hold me tight, ecstasy  
Makin' love 'til everafter  
You and me baby, you and me

I promise you, dreams do come true  
There's trials and tribulations that we all go through  
When your heart's bleedin', how could the sky seem  
blue?  
But listen up shorty, this is what I wanna do

Be there for you, baby care for you  
When my dogs stare at you never sharin' you  
And to my ex-girlfriend, never comparin' you  
And do the things that your ex never dared to do

Time to bounce baby, I'm takin' you home  
Look at the moonlight sparkle on the 20 inch chrome  
The rocks on my hand got a life of they own  
Plus the blend tape's bumpin' and it's settin' the tone

Should I jet to the hotel, is now the right time  
Or should I be patient and explore your mind?  
You said you grew up in the ghetto and it hurt your  
heart  
Tried to live smart but your dreams fell apart

You dated hustlers and brought 'em customers  
They totally destroyed whatever trust there was  
Now you hate men and everything they stand for  
'Cause you wanna be treated like a queen, not a whore

Close your eyes, don't be afraid to dream  
Open your heart to this cat from Queens  
Whatever you wanna do, however you wanna do it  
Back to back baby, we can get each other through it

Every night, every day  
(Knahmean?)  
I just sit and dream about you  
(Word up)  
You and me baby, you and me  
(Yeah, yeah)  
Hold me tight, ecstasy  
(C'mon, c'mon)  
Makin' love 'til everafter  
(C'mon, c'mon)  
Yeah, you and me  
(Yeah)

Every night, every day  
(I just want you to think about that, y'knahmsayin'?)  
I just sit and dream about you  
(Late at night when you layin' there)  
(And you feel like the whole world is fallin' around you)  
You and me  
(Remember these words that I said)  
Hold me tight, ecstasy  
(There's somebody out there for you baby)  
Makin' love 'til everafter  
(Might be me, you never know, word up)  
(Stay strong shorty)

You and me

(Keep your eyes up to the sky, knahmsayin'?)

Every night, every day

I just sit and dream about you

(Don't let nobody tell you you can't make it)

(And don't let nobody around you tell you)

You and me

(That it ain't possible to make your dreams come true)

Hold me tight, ecstasy

(Word up)

Makin' love 'til everafter

(Knahmean? That's real)

Baby you and me, yeah you and me

(Queens represent, rock on)

Every night, every day

I just sit and dream about you

You and me, yeah you and me

Hold me tight, ecstasy

Makin' love 'til everafter

Baby you and me, yeah you and me

Every night, every day

I just sit and dream about you

You and me

Hold me tight, ecstasy
