Do It Again

If we do it one time  
We gonna do it two times  
And then three times  
And then four times  
And then we rewind  
And do it one more time  
Let's do it again  
Let's do it again

[Verse 1]

Baby, feeling of me thinkng about you is driving me  
crazy  
Coz I just wanna give you all this love  
And I hate it  
When I have to wait oh baby I'm tryna be patient  
But my heart is in a rush  
I want you, I need you  
Right now, baby right now  
I can't do, without you  
Na nah, baby I'm so gone, girl I

[Chorus]

Girl I think I'm falling, and I don't wanna get up  
And even if I'm dreaming, I don't wanna wake up  
Tell me can I have you baby, 365 oh yeah  
Coz everytime we touch, I be in a trance and I just  
wanna do it again  
Oh baby can we do it again  
Oh baby can we do it again  
Oh baby can we do it again  
Oh baby can we do it again  
Oh baby can we do it again  
Oh baby can we do it again  
Oh baby can we do it again

[Verse 2]

When I wake up  
First thing that I wanna do is see your face girl

Oh you be looking so good, don't need no make up  
And everytime you go away I want you to stay girl, right  
here girl  
Coz I want you, I need you  
Right now, baby right now  
I can't do, without you  
Na nah, baby I'm so gone, girl I

[Chorus]

[Nelly Rap]

Would I be wrong if I ask for one more  
If I say ee ii, would you say oh oh  
Cool like ice t she hot like cocoa  
Shawty got em picture perfect frame like photo so  
You make me waana do it again  
Wake up in the morning yeah do it again  
Sweatin by your job at lunch break you in  
And let you know what you gonna give when you get  
home  
Baby we can lead our lives on  
(If you wanna) Make our own movie on your phone  
(If you wanna) How about one more time for the road  
If you wanna, you wanna, yeah yeah you wanna  
It aint no secret shawty you the one I'm falling for  
Late night flight you the one I'm calling on  
Aint no comparison she's something that I've never  
known  
Something that I never know, know know

[Chorus]
