Umm, hey, oh, oh yeah, umm, umm look

Oh, miss lady, these sexual thoughts keep rushing
through my mind

All I wanna do is touch you
Because the feelings that I feel so hard to fight
But I ain't trying to rush you

Even though I'm only in your town for one night
I got enough time to rush through the drill
Girl tell me how you feel deep down inside, yeah
'Cause I'm trying to make you feel

Feel so right
Whenever your body's laying next to mine
Gonna get loose, let's take it through the roof
'Cause you know that you're the truth, girl you're extra
fine

'Cause I'm trying to make you feel, feel so right
Whenever your body's laying next to mine
Gonna get loose, let's take it through the roof
'Cause you know that you're the truth, girl you're extra
fine, yeah

Girl, your lips, your eyes, your hips, your thighs is so
hypnotizing
This feeling inside of me is steadily rising
'Cause girl I know, baby girl I know, your love I'm trying
to hold on to
Why don't you just let go and loose control, it's all on
you

Feel so right
Whenever your body's laying next to mine
Gonna get loose, let's take it through the roof
'Cause you know that you're the truth, girl you're extra
fine

'Cause I'm trying to make you feel, feel so right
Whenever your body's laying next to mine
Gonna get loose, let's take it through the roof

'Cause you know that you're the truth, girl you're extra fine, yeah

So shout it, just relax your mind, sit back and let's unwind

I promise it'll feel real good, just let me massage your spine

'Cause baby there's no need to rush

We got no where to go, take your time

And you see by the end of our escapade, I'll make you mine

Feel so right

Whenever your body's laying next to mine

Gonna get loose, let's take it through the roof

'Cause you know that you're the truth, girl you're extra fine

'Cause I'm trying to make you feel, feel so right

Whenever your body's laying next to mine

Gonna get loose, let's take it through the roof

'Cause you know that you're the truth, girl you're extra fine, yeah

Cause I'm trying to make you feel, feel so right

Whenever your body's laying next to mine

Gonna get loose, let's take it through the roof

'Cause you know that you're the truth, girl you're extra fine

Cause I'm trying to make you feel, feel so right

Whenever your body's laying next to mine

Gonna get loose, let's take it through the roof

'Cause you know that you're the truth, girl you're extra fine, yeah
