[Lloyd]

Yeah,

Ooh baby, you got me like this

I think I'm in love by the time I can't stop dreaming

I gotta have it

I am that, you came down to save me

Ooh you're my ghetto angel

If you were (?) oh baby

(?)

I know the cost, oh baby

You need somebody to trust

Got your body at all

Cause I'll be here to love you

You're forever my girl

And girl you know it's true

Oh oh oh I do love you

Yeah, but girl you know it's true

Oh oh oh I do love you

I love you

Stop, bring it back, all of your loving

And put it down, you're the one

Right now, like you baby

And I'm so happy I am that

You came down to save me

Oh you're my ghetto angel

If you were in (?)

Oh baby

When I make love, I know who to call

You need somebody to trust, touch your body at all

Cause I'll be here to love

You're forever my girl

And girl you know it's true

I do love you baby

I love you

Champagne spillin' here's a toast to the life

Let you get away before, don't make the wrong choice
twice

I aint going nowhere

Stuck my body in a vice

Dom P, she hit me like a shawty would on sight
If I'm going on T, I gotta find another flight
I'm flawless, you shine like a diamond in the light
You don't want sh-t, but I provide anything you like
Like you cool the way you living
Lets go get em tonight
I'm gone with the way things were
Don't nobody get it like her
I let the top down and she like it
We make the perfect pair, roll a blunt up in the light
Shawty notice how I want it
Then she holla at a cycle
"hi" to the haters like I'm waving off a mountain
Cause them n-ggas can't see me, always hatin' when
I'm counting
When I'm on top her body go off like a fountain
Found the baddest thing walking
Sit her down, talk about them.

When I make love, I know who to call
You need somebody to trust, touch your body at all
Cause I'll be here to love
You're forever my girl
And girl you know it's true
I do love you baby
I love you
