[Lloyd: Talking]

This love making 101
Heard you talking a lot of shit girl
I'm a show you how it's done
Yea yea yea yea yea yea, oh
Yea yea yea yea yea yea

[Verse 1:]

Girl you talk a good game like you gon' work that thing
and put it on me
And I'm tryna figure out how you gon' act like that
When you don't know me
Girl you betta ease up
Before I have come through and make you a believer
Class is in session girl you be the student I'm the
teacher

[Bridge:]

I've been all around
Never met one like you and fussy too
Tonight it's goin down
Just tell me those three words and I'll do whatever I
gotta
Girl I'll start off at the bottom but I end up at the top
Where you rock is your problem

[Chorus:]

We're all alone turn off the phone
Now that your right of that patron
Go and let that freak out gotta let that freak out you
Let that freak out gotta let that freak out
I wanna meet her girl I wanna see it
Been waitin' so long
You know I need it
Come on and bring that freak out, bring that freak out
you
Bring that freak out, I'm a bring that freak out you

[Verse 2:]

Open the door and lemme come inside tonight
Pretty sure that I can give it to ya right and I'm

So anxious to see you to see just how freaky you can be
Cause' once were in the mode there's no tellin us
Oh girl

[Bridge:]

I've been all around
Never met one like you and fussy too
Tonight it's goin down
Just tell me those three words and I'll do whatever I
gotta
Girl I'll start off at the bottom but I end up at the top
Where you rock is your problem

[Chorus:]

We're all alone turn off the phone
Now that your right of that patron
Go and let that freak out gotta let that freak out you
Let that freak out gotta let that freak out
I wanna meet her girl I wanna see it
Been waitin' so long
You know I need it
Come on and bring that freak out, bring that freak out
you
Bring that freak out, I'm a bring that freak out you

[Verse 3:]

Baby you and I don't need to be afraid
To try whatever you like you
Know I gotta have you by my side
Make you feel so good
It's the greatest love of your life
And if you don't mind
Go head and put it on me mama
Like you owe me somethin'
Yeaaaaaaaaaaaa
[Music till' the end]
