Superstar, You are
The best I ever had by far
Thought that I can't get over you
But know you're just too far
So high up there
Babe It ain't can't touch
Who know they can't touch you (Yeah)
All I wanna hear you say babe is yes
But you're head is right here
And you can hear my heart
Go Boom Boom Boom Boom
I'll be missing you like
Boom Boom Boom Boom
I'll be needing you

I need you like
Like heat needs the summer
Ooh girl I want you
Babe I need you like
The snow needs the winter
Ooh babe your the winter
And my heart keeps calling, calling
And I keep falling, falling
For your love
And I don't wanna get up
I don't wanna get up x3
And I don't wanna get up, No

Sheets are made of silk
Girl my bed is made for you
Now I can't go to sleep
Cause no other girls will do
You're so fly up there
You're so fly up there
Babe it ain't can't touch you
Ooh and I can't touch you
Yeah, All I wanna hear you say babe is yeah
But you're head is right here
You can hear my heart
Go Boom Boom Boom Boom
I'll be missing you
Like Boom Boom Boom Boom

I'll be needing you

I need you like
Like heat needs the summer
Ooh girl I want you
Babe I need you like
The snow needs the winter
Ooh babe your the winter
And my heart keeps calling, calling
And I keep falling, falling
For your love
And I don't wanna get up
I don't wanna get up x3
And I don't wanna get up, No

Babe, I need you to know something (Babe I miss you)
You're more than special to me (Babe I miss you)
I need you for reals
I need you
My heart needs you
My body needs you
And my soul, it needs you

I need you like
Like heat needs the summer
Ooh girl I want you
Babe I need you like
The snow needs the winter
Ooh babe your the winter
And my heart keeps calling, calling
And I keep falling, falling
For your love
And I don't wanna get up
I don't wanna get up x3
And I don't wanna get up, No

(Babe I miss you)
