[Verse 1:]

Heard you and your man was beefin'
Thought I should come and see ya
To find out if you needed anything
Just wonderin' if you need a little change
I've been knowin' you bout forever
I was thinkin if we got together
It just might be the truth
Perfect for me and you
Now look at here I got somethin for you to hold
And I don't care who may see it who may know
Cause' I want ya so bad
And girl you know I'm a g
Do you mind taken no for an answer
Cause' I would like to see if we could

[Chorus:]

Kiss a lil bit
Hug a lil bit
Touch a lil bit
Maybe rub a lil bit
I'm the man of your dreams
If you know what I mean
Baby can't you see
I treat you good
Just a little
Kiss you on your lips
The ones past your hips
I wanna keep it hood
Just a little
Do things that he can't
I wanna know
I like it I like it I like it I like it I like it I like it girl
Lemme hear you say
I need it I need it I need it I need it I need it I need it boy

[Verse 2:]

Is it wrong to feel like this
Is it bad to have you here
For you I have much respect
I don't want you to regret
Steppin up at how you do

Even though if you know it's the right move
Even though if you know it's an upgrade
Even though if you know if you know you wanna stay
Look at here I got somethin' for you to hold
And I don't care who may see it who may know
Cause' I want you so bad
Girl you know I'm a g
Mind takin' no for an answer
Cause I wanna see

[Chorus]

[Verse 3:]

Do you have the time to stay tonight
Ohhh ohhh baby
Do you have the time to stay for life
Woahh
Cause our lovin was good
Girl by now you should know
There's no way I'm gonna let you go
I don't mean to bring the pressure
But girl I'll be a fool if I up and just
Let you go
Girl you know I wanna

[Chorus]
