I'm like why commit it's just a waste of time  
But some how I'm convinced your not any other girl  
And for some reason I'm still holding on  
Petty arguments and all our ups and downs  
It's been crazy but we been at it for a while  
The situation I can't leave it alone.

[Chorus:]

Girl I don't know this feeling I'm feeling is real deep  
down inside it's telling me it's right  
This feeling I'm feeling is real deep down inside it's  
telling me it's right  
If what your saying is that I can be your only  
I'm with it [x3]  
Say I will be your say I will be your I will be your.

When you come around I can't find the words to say  
I get speechless how you take my breath away

What is it about you I just can't put my finger on  
And I ask myself if this is just another game that I'm  
playing how come this feeling still remains  
Am I so blind that I can't see I am wrong  
But I don't know.

[Chorus]

And no matter what lies problems come nobody's  
perfect  
Just know that you got me this means that we can get  
through  
Baby cause now I know.

[Chorus]
