"Lessons In Love"

[Verse:]

Oh baby I been studying for so long
Researching your body
And I think I'm ready to start my private lessons at
home
But there's just one problem
Time is running out girl and I need the scores to count
girl
semester's almost up and I still ain't had enough
If it's extra credit for summer then baby sign me up

[Chorus: x2]

Show me anything that you're wanting
And I'll be everything that you're wanting
Tonight you'll see I'm ready for lessons in love
Cause I want to learn you
Show me the way that you want it
And I'll be everything that you're wanting
Tonight you'll see I'm ready for lessons in love
Cause I want to learn you
