you can count on me  
this christmas i will be there  
under the mistletoe  
light a fire we share  
our love and joy we got to give  
that's no better way to end the year  
girl you know that this christmas  
is you and me  
girl you know that this christmas  
is you and me

you can count on me  
gonna hope you win this love  
sitting by the tree as it figures and it closes  
gonna make you feel alright  
gonna be the best christmas night  
girl you know that this christmas is you ad me  
girl you know that this christmas  
is you and me

christmas day it's on its way  
there is nothing i would rather do  
than just spend it right here with you  
my love baby

girl you know that this christmas  
is you and me  
girl you know that this christmas  
is you and me
